

SOLDERING WORKSHOP

@ Mountain View Public Library

Tuesday, July 9, 2013

7:00 p.m.

Free!

**Space is
Limited**

**For ages
16 and up**

In this hands-on workshop, you'll learn the basics of soldering. Each participant will have access to their own soldering station and will use a molten material called solder to form a bond between two objects. Soldering is useful in many different applications, including electronics, jewelry-making, plumbing and arts and crafts.
